

Sprint Retrospective:

What went well:

1. We were on time
2. Presentation had little to no notes
3. Coordinated a migration from bitbucket to git

What went poorly:

1. Failure to practice presentation
2. Could not submit things from visual studios

What will be changed:

1. Doing a once through for the presentation

Sprint Plan:

(1) how many tasks you have in the next sprint to start, along with how many story points are included in the entire spring

Chad: Database Backend - 4

Thea: CRUD Operations - 4

(2) how many story points you completed the last sprint

Thea/Chad: 1

(3) any factors that impacted how many story points you have included in the next sprint (holidays, events, etc...).

Project 1 in Web Programming, both teammates

(4) a screen shot of the spreadsheet you are using to determine the story point load that the team can accomplish this sprint.

@Chadul1's Sprint 2
